

Did you know?

Explorers use a "Touch Tree" avoid getting lost. They pick a very large tree that they can see from far away. They walk away from the tree to explore, but they can always look for the tree and come back to it to remember where they started. So, a Touch Tree is like a home base for the explorer.

My Special Word Touch Tree

Make a Special Word Touch Tree by writing your special word on the tree trunk. Then fill the branches with leaves using your favorite art supplies.
